

Pest Control

Everyone has the right to work and live in a healthy, clean and pest-free environment.

Pest problems are often complex and require a professional integrated response. Slime and Grime, fully qualified pest control technicians bring you peace of mind, knowing that in their hands your pest infestation will be resolved.

Pest infestations do not go away on their own and can often escalate if untreated. Trust Slime & Grime to solve your problems.

Pests in business

Whether disease transmitting or not, the impact of pests, to the manufacturing, leisure and tourism industry and the local economy can be sizeable. This public health nuisance can deter people from visiting thriving local attractions, camp sites and golf courses, or from using outdoor facilities in popular

restaurants and pubs. This can result in a loss of revenue but could also cause the closure of businesses if companies can not prove they have shown due diligence in preventing infestations.

Slime & Grime provide thorough, professional inspections and treatments that are fully documented with copies provided for your records.

Pests in the home

Pest infestations can occur anywhere and are not determined by social or economic divides. Slime & Grime understand the distress these infestations can cause and offer a professional and discreet service that ensures pest infestations are dealt with quickly and efficiently.
